Step-By-Step Guidance to Fix QuickBooks Error 12057

1.Check Your Computer's Date & Time

Sometimes an incorrect date or time on your computer can cause QuickBooks to fail during updates.

To Fix this:

- Right-tap on the date and time on your Windows taskbar.
- Choose or select Adjust date/time.
- Make sure that the date, time and time zone are correct.
- Restart QuickBooks and try the updates again.

2.Verify Your Internet Connection is Stable

The QuickBooks requires a stable internet connection for updates.

Confirm that:

- Your internet connection is working.
- QuickBooks has access to the internet.
- Yor network is not blocking QuickBooks' access.

3.Check Your Firewall and Antivirus Settings

Sometimes Firewall and antivirus software might bloc QuickBooks from accessing the internet.

To solve this, follow the steps:

- Disable your firewall/antivirus temporarily.
- Try updating QuickBooks.
- If the update works, adjust your firewall/ antivirus settings to allow QuickBooks, then re-enable the firewall.

Note: if you are using a third-party, you may need to add QuickBooks to the exception list.

4.Manually Update QuickBooks

If by any-chance automatic update fails, try updating QuickBooks manually:

- Go to or (Open) QuickBooks.
- Tap on Help in the top menu.
- select Update QuickBooks Desktop.
- In the Update QuickBooks windows, choose or select Update Now.
- Choose Get Updates.

After the update, restart QuickBooks to apply changes.

5.Repair QuickBooks Installation

Sometimes, Corrupted or Outdated QuickBooks files cause errors like Error 12057.

To repair QuickBooks:

- Close QuickBooks and all related programs.
- Open Control Panel on your computer.
- Select Programs and Features.
- Find QuickBooks in the list, then click Uninstall/Changes.
- Select or choose Repair, and follow the prompts to fix the installation.
- Once the repair is complete, restart your computer and check if the error continue.

6.Install the Latest Windows Updates

Sometimes, missing Windows updates can leads to software conflict with QuickBooks.

To verify your system is up-to-date:

- Go to the Settings on your computer.
- Open Update & Security.
- Check for any available updates and install them.
- Restart your computer and try QuickBooks again.

Additional Tips To Prevent QuickBooks Error 12057

- **Regularly check for QuickBooks updates:** Keeping your software up-to-date. it will helps you to prevent error.
- **Use a stable internet connection:** Make sure that your network reliable and free from interruptions during updates.

- **Backup your QuickBooks data:** Regular backups will help you avoid data loss and recovery quickly in case of errors.

By following the upper given steps, you should be able to fix QuickBooks Error 12057 and continue using the software without issues. If the problem continue, consider reaching out to **QuickBooks Support** for further assistance.
